

DOMAIN POWER CARDS

COREBOOK 12.06 / PRINT FRIENDLY

147 cards. Original 63 x 88 mm trim size. 3 mm bleed on every side. Six cards per A4 sheet; 25 double-sided sheets. These files contain 52 pages, including this instruction page and its blank reverse.

PRINT / IMPRIMIR

Print **pages 3-52**, in order, A4 portrait, **actual size / 100%**, double-sided, **flip on the long edge**. Disable fit-to-page and extra pages per sheet. Test one front/back pair before printing the complete deck.

Imprime las **p ginas 3-52**, en orden, A4 vertical, **tama o real / 100%**, a doble cara y con **giro por el borde largo**. Desactiva ajustar a p gina y no a adas m is p ginas por hoja. Prueba primero una pareja de anverso y reverso.

CUT / RECORTAR

The outside crop marks define a 63 x 88 mm cutting grid. Cut along the marks, not around the outer bleed. The 3 mm bleed and the 8 mm gutters are discarded. White card edges intentionally have white bleed; only the backgrounds continue beyond the trim.

Las marcas exteriores definen una cuadr cula de corte de 63 x 88 mm. Corta siguiendo las marcas, no el borde del sangrado. Se descartan los 3 mm de sangrado y las separaciones de 8 mm.

BACKS / REVERSOS

145 VeilFarers logo backs and 2 rules continuations. Each front is followed by its matching reverse; back columns are mirrored for duplex printing. A power using both sides is still one Loadout card.

Cada anverso va seguido de su reverso correspondiente. Las columnas del reverso est n invertidas para la impresi n a doble cara. Un poder a dos caras sigue siendo una sola carta de Loadout.

Contents / Contenido: Tech, Synthesis, Social, Neural, Kinetic, Void and Lux - 21 cards each. All 147 original English powers are preserved; card text and artwork have not been resized.

_____ Scale check / Escala: 50 mm

TECH / SPELL

RC 0

Drone Whisper

Cost: 1 Hope
Roll: DC 10 (Knowledge)

Spend 1 Hope and make a Knowledge Spellcast Roll (DC 10 for civilian units, DC 15 for military units, or DC 20 for advanced AIs). On a success, take control of one Tier 1-2 mechanical unit within Close range for 1 hour. The unit follows your instructions within its normal technical capabilities.

On Success with Hope, the duration extends to 4 hours and the unit may immediately take one extra ordinary Action from its own stat block. It gains no new capability and cannot override a conscious Synthetic or player-controlled unit.

On a failure, the attempt is detected. The unit's owner receives an unauthorized-access alert and the Keeper gains 1 Fear, subject to the hard maximum of 12.

This power cannot be used against a conscious Synthetic without that character's explicit consent.

TEC-01 / FRONT

1

TECH / SPELL

RC 1

Quantum Firewall

Cost: 1 Hope
Roll: DC 15 (Knowledge)

Spend 1 Hope and make a Knowledge Spellcast Roll (DC 15). On a success, touch a device or network and install an active cryptographic defense layer. Any attempt to hack that system must exceed the result of your Knowledge roll instead of the system's normal DC. The protection lasts until the end of the scene or for 1 hour, whichever is shorter.

On a Success with Hope, the system also alerts you silently whenever someone attempts access and reveals the attempt's point of origin.

On a failure, the protection fails and leaves a detectable signature. An Inspector with appropriate technical knowledge can identify the failed attempt with a Knowledge roll against DC 10.

6

TECH / SPELL

RC 3

Consciousness Transfer

Cost: 2 Hope + 1 Stress
Roll: DC 20 (Knowledge)

Spend 2 Hope and mark 1 Stress, then make a Knowledge Spellcast Roll (DC 20). On a success, transfer your consciousness into a willing or inactive mind within Close range, such as a powered-down android, an unowned AI, or an unconscious body. The transfer lasts for no more than one scene.

While transferred, you can:

- Perceive through the host's senses.
- Communicate using the host's voice.
- Use Social and Neural Domain Powers as though you were physically present at the host's location.

While transferred, you cannot:

- Use Kinetic, Tech, or Synthesis Domain Powers, which require your physical body.
- Move beyond the host body's physical capabilities.
- Access the host's memories or technical abilities.

Your physical body remains unconscious and defenseless. Each time it takes damage during the transfer, mark 1 Stress. If your body is reduced to 0 HP, the transfer ends immediately and you enter Dying under the normal procedure, including the player's voluntary Death Move choice.

6

TECH / LONG-TERM PROJECT (6 SEGMENTS)

RC 3

Invention Protocol

Cost: -
Roll: -

During Downtime, undertake the design and construction of a unique Tier 4 device, such as a prototype weapon, specialized augmentation, or experimental tool. Define its function, limitations, and potential side effects with the Keeper before beginning.

Progress: During each Downtime phase devoted to the project, make a Knowledge Roll, DC 15. Critical Success marks 3 segments; Success with Hope marks 2; Success with Fear marks 1 and generates Fear normally; Failure with Hope marks none; Failure with Fear marks none and the inventor chooses one acquired component to be consumed. If no component has been acquired, mark 1 Stress instead.

Completion: Gain the device's schematic and a functional prototype. The prototype has the Experimental tag and begins with Degradation 1.

At the start of any work phase, you may spend 1 Hope. If you do, the final prototype permanently retains the Experimental tag and takes twice as long to suffer its first Degradation.

VEILFARERS

TEC-16 / FRONT

8

TECH / SPELL

RC 3

Digital Apotheosis

Cost: 5 Hope + 3 Stress
Roll: DC 25 (Knowledge)

Once per campaign · Personal Arc culmination
Spend 5 Hope and mark 3 Stress, then make a Knowledge Spellcast Roll (DC 25). This action requires 10 uninterrupted minutes of preparation.

On a success, permanently transfer your consciousness into an appropriate Tier 5 AI form agreed upon with the Keeper. You gain a direct interface with any system in your current star system as a movement action, Experimental Proficiency with all Tech devices, and immunity to Physical damage while in digital form.

Your biological body enters dormancy. It does not die, but it cannot act and remains a point of physical vulnerability. On a failure, the process fragments your consciousness. The player chooses one unlocked Domain; its Powers become unavailable until the character completes one declared personal mission lasting a story arc. Costs already paid remain spent.

This power requires the narrative consent of the entire table. The Keeper must discuss its campaign implications before resolving it.

Cost: 1 Stress
Roll: -

Mark 1 Stress. For the remainder of the scene, you see through illusions, invisibility, and mundane disguise. You ignore all visibility penalties from darkness, smoke, or Veil distortion. You gain Advantage on Instinct Rolls to Perceive or Investigate. Additionally, you can read emotional intent --- you know when someone within Close range is lying, afraid, or hostile, though not the specific content of their thoughts (that is Neural territory).

RC 1

Photon Shield

Cost: 1 Stress
Roll: -

Trigger: An ally within Close range takes HP damage from an attack.
Reaction. Mark 1 Stress. When an ally within Close range takes HP damage from an attack, reduce the damage by your Tier + 2 before it is compared to Damage Thresholds. Against creatures with the Veil-Touched tag, the reduction is doubled.

LUX / SPELL

RC 2

Aura of Clarity

Cost: 1 Hope
Roll: DC 15 (Presence)

Cost: 1 Hope. Presence Spellcast Roll (DC 15). Cost: 1 Hope. Concentration. You and all allies within Close range are immune to the Frightened and Dazed conditions. While sustained, all allied Damage Thresholds within the aura increase by +1 (both Major and Severe). Concentration ends if you take Stress or are incapacitated.

RC 1

Stellar Lance

Cost: 1 Hope
Roll: DC 15 (Presence)

Presence Spellcast Roll (DC 15). Ranged attack at Far range. Deal (Proficiency)*d8 Energy damage with the Radiant tag. Against targets wearing Heavy or Very Heavy armor, this attack gains the Devastating keyword. At Tier 2+, the target is marked as Illuminated until the end of your next Spotlight: they cannot benefit from cover or stealth, and the next attack against them has Advantage.

LUX / ABILITY (REACTION)

RC 2

Deflection Prism

Cost: 2 Hope
Roll: -

Trigger: An enemy makes a ranged attack against you or an adjacent ally.
Spend 2 Hope as a Reaction. Redirect the attack to any other valid target within the original weapon's range. Resolve the original attack roll against the new target's Evasion.
Limitation: You cannot redirect the attack back at the original attacker. This power works only against ranged attacks, not melee attacks.

LUX / SPELL

RC 2

Solar Judgment

Cost: 1 Hope
Roll: DC 15 (Presence)

Cost: 1 Hope. Presence Spellcast Roll (DC 15). Choose a point within Close range; every enemy in a Very Close zone around it takes (Proficiency)*d6 Energy damage with the Radiant tag. A creature with the Veil-Touched or Void tag then makes an Instinct Reaction Roll, DC 15; on failure it is Dazed and cannot use Void Powers until the end of its next Spotlight.

RC 2

Cartographer of the Unseen

Cost: 1 Hope
Roll: DC 15 (Instinct)

Instinct Spellcast Roll (DC 15). Cost: 1 Hope. For the remainder of the scene, you perceive the complete layout of the structure, installation, or natural environment within a 500-meter radius. You know every room, corridor, door, shaft, and hidden passage. You know where every creature larger than a rat is located and whether they are moving. You cannot determine identity or intent --- only position, count, and approximate size. This information updates in real time for the duration.

LUX / SPELL

RC 3

Solar Avatar

Cost: 4 Hope
Roll: DC 25 (Presence)

Once per long rest
Presence Spellcast Roll (DC 25). Cost: 4 Hope. Personal transformation lasting 3 rounds. While transformed, you gain flight and immunity to Physical damage. After a Lux attack determines its normal HP loss, increase that loss by 1, to a maximum of 4 HP from severity and Overkill before other explicit modifiers. You emit bright light to Far range; a creature attempting a Void Power there first makes a Presence Reaction Roll, DC 20, and on failure the paid Power has no effect. When the transformation ends, mark 2 Stress.

RC 3

Pulse of Genesis

Cost: All remaining Hope (minimum 5)
Roll: DC 25 (Presence)

Once per story arc
Presence Spellcast Roll (DC 25). Cost: All remaining Hope (minimum 5). You release a wave of purifying light across the entire sector. All Veil corruption, Void anomalies, and temporal distortions within the area are suppressed for 24 hours. Veil-Touched NPCs of Tier 3 or lower are removed from the scene; a player character instead takes 4d10 Energy damage with the Radiant tag and uses the normal Dying procedure. Tier 4+ creatures take the same 4d10 Energy damage.

RC 3

Apotheosis

Cost: 5 Hope + 3 Stress
Roll: DC 30 (Presence)

Once per campaign [Mythic]
Mythic. Once per campaign. Presence Spellcast Roll (DC 30). Cost: 5 Hope + 3 Stress. You collapse the boundary between yourself and the Hope Frequency itself, becoming, for one perfect moment, a fragment of stellar light made flesh. On activation: All allies within Far range heal HP equal to their current Severe Threshold and clear 1 Stress. All enemies within Far range take 6d10 Energy damage with the Radiant tag (no Thresholds, direct HP, ignores armor). Veil-Touched enemies take double damage from this effect. Vessel of Light: Until the end of the current scene, you cannot fall below 1 HP and your unarmed strikes deal 1d6 Energy damage with the Radiant tag in addition to their normal damage. When the scene ends, your body discorporates. You reform 24 hours later at the nearest star system, with 1 HP and 0 Stress. You cannot be resurrected by any other means during this 24-hour period. Failure: The light tears through you instead of through your enemies. You take 4d10 damage (Threshold-applied), the Keeper gains 4 Fear, subject to the hard maximum of 12, and Apotheosis is unavailable for the remainder of the campaign.
